

BONALDO

Cortina

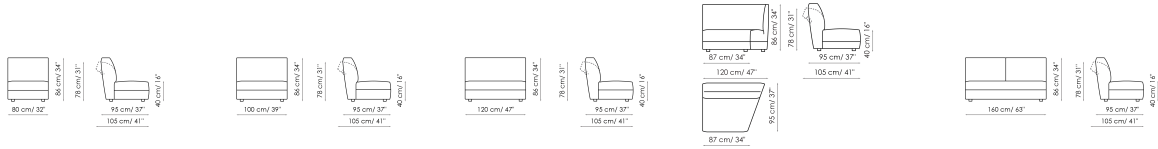

One of the main characteristics of Cortina is its modular system: in addition to the classic linear sofa, it is possible to create solutions with chaise longue or corners, combining poufs or opting for more creative compositions. It is indeed possible to insert in the composition some container elements in leather or coffee tables in lacquered wood: a series of elements that in this way contribute to both aesthetic and functional

personalisation, allowing a conventional or alternative use of the sofa. All the components - backrests, armrests, seat cushions - are padded in down, to ensure maximum comfort; the backrests and armrests are fitted with mechanical joints that allow them to recline to the user's specific level of comfort. This makes it look more sociable and enticing to relax and sit on casually. The upholstery, in fabric or leather, is fully removable.
